

Green Real Estate Education has partnered with Pro Train LLC in Raleigh, N.C. to deliver their green educational programs to students in 150 colleges nationwide.

Green Real Estate Education who has educated over 6,000 in introducing green education to the real estate sectors has partnered with Pro Train LLC in Raleigh, N.C., to deliver their customized online green training programs to the college markets. Pro Train is the leading provider in offering cost effective green programs in continuing education and adult education sectors in the United States.

Green Real Estate Education who provides high quality, affordable educational programs related to the green economy. "Students who are introduced to our programs through Pro Train, LLC can take our online courses at lower costs. We still deliver the content but Pro Train, LLC is in essence our marketing arm, and we are excited about this affiliation." Says Kerry Mitchell, President of Green Real Estate Education

"ProTrain offers the most online Green, Renewable Energy and Sustainability courses." Says Tony Davis, Director of New Business Development & Partnerships for Pro Train, LLC. " We are pleased to offer Green Real Estate Education courses, Their fast track format is what colleges are looking for."

"Students who take our fast track courses can advance quicker and are defying the myth that advanced degreed courses are the only way to achieve success in getting job." Says Mitchell. "We equip our students to be leaders in the green economy." The company has spent countless hours researching and designing programs for quick study in waste management, sustainability planning and green building basics. Their newest courses are for those in the health care and insurance industry. Green Real Estate Education is the only company offering green and sustainability guidance for those professions. "We have been approached by larger trade associations and hope to connect continuing education credits in the very near future." Says Mitchell.

Green Real Estate Education courses have been offered for 3 years for real estate agents, loan officers and inspectors. Mitchell says, "the education is here, and ready, we just hope these sectors know they do not need to spend \$300 or even \$500 more to gain the knowledge for their specific career path." The company has earned a coveted spot in the green education arena.
